

Checklist for moving

If you're moving, there are a lot of things to remember. To make this a little easier for you, we're happy to help with this handy checklist.

Things to take care of in your old house

- Terminate the lease.
- Inform your current energy supplier and Vitens about the move.
- Submit the meter readings to the energy supplier and to Vitens.
- Cancel your rental water heater or boiler.

Things to take care of in your new house

- Take out or transfer your liability and contents insurance.
- Sign up with your new energy supplier. Heating is registered at Ennatuurlijk.
- Sign a contract for your heater or boiler.
- Submit the meter readings to the energy supplier and to Vitens.
- Notify the council of your move.
- Apply for, or update your rent allowance with the tax authorities.
- Is your new house located in Enschede or Losser? Check if there is a waste pass in your new home. If not, request a new one for free within three months after your move from Twente Milieu (for Enschede) or the council (for Losser). Haaksbergen does not use a waste pass.

MijnDomijn

Arrange a lot of rental matters easily online through MyDomijn. Schedule a repair, terminate your lease, or request co-tenancy, for example. Wherever and whenever you want. Without being dependent on our opening hours. Pretty convenient!
